Energy Efficiency

Energy from Chemical Fuels

Renewable Energies

Smart and Efficient Buildings and Cities

Smart Electric Grid

Sustainable Nuclear and Renewable Convergence

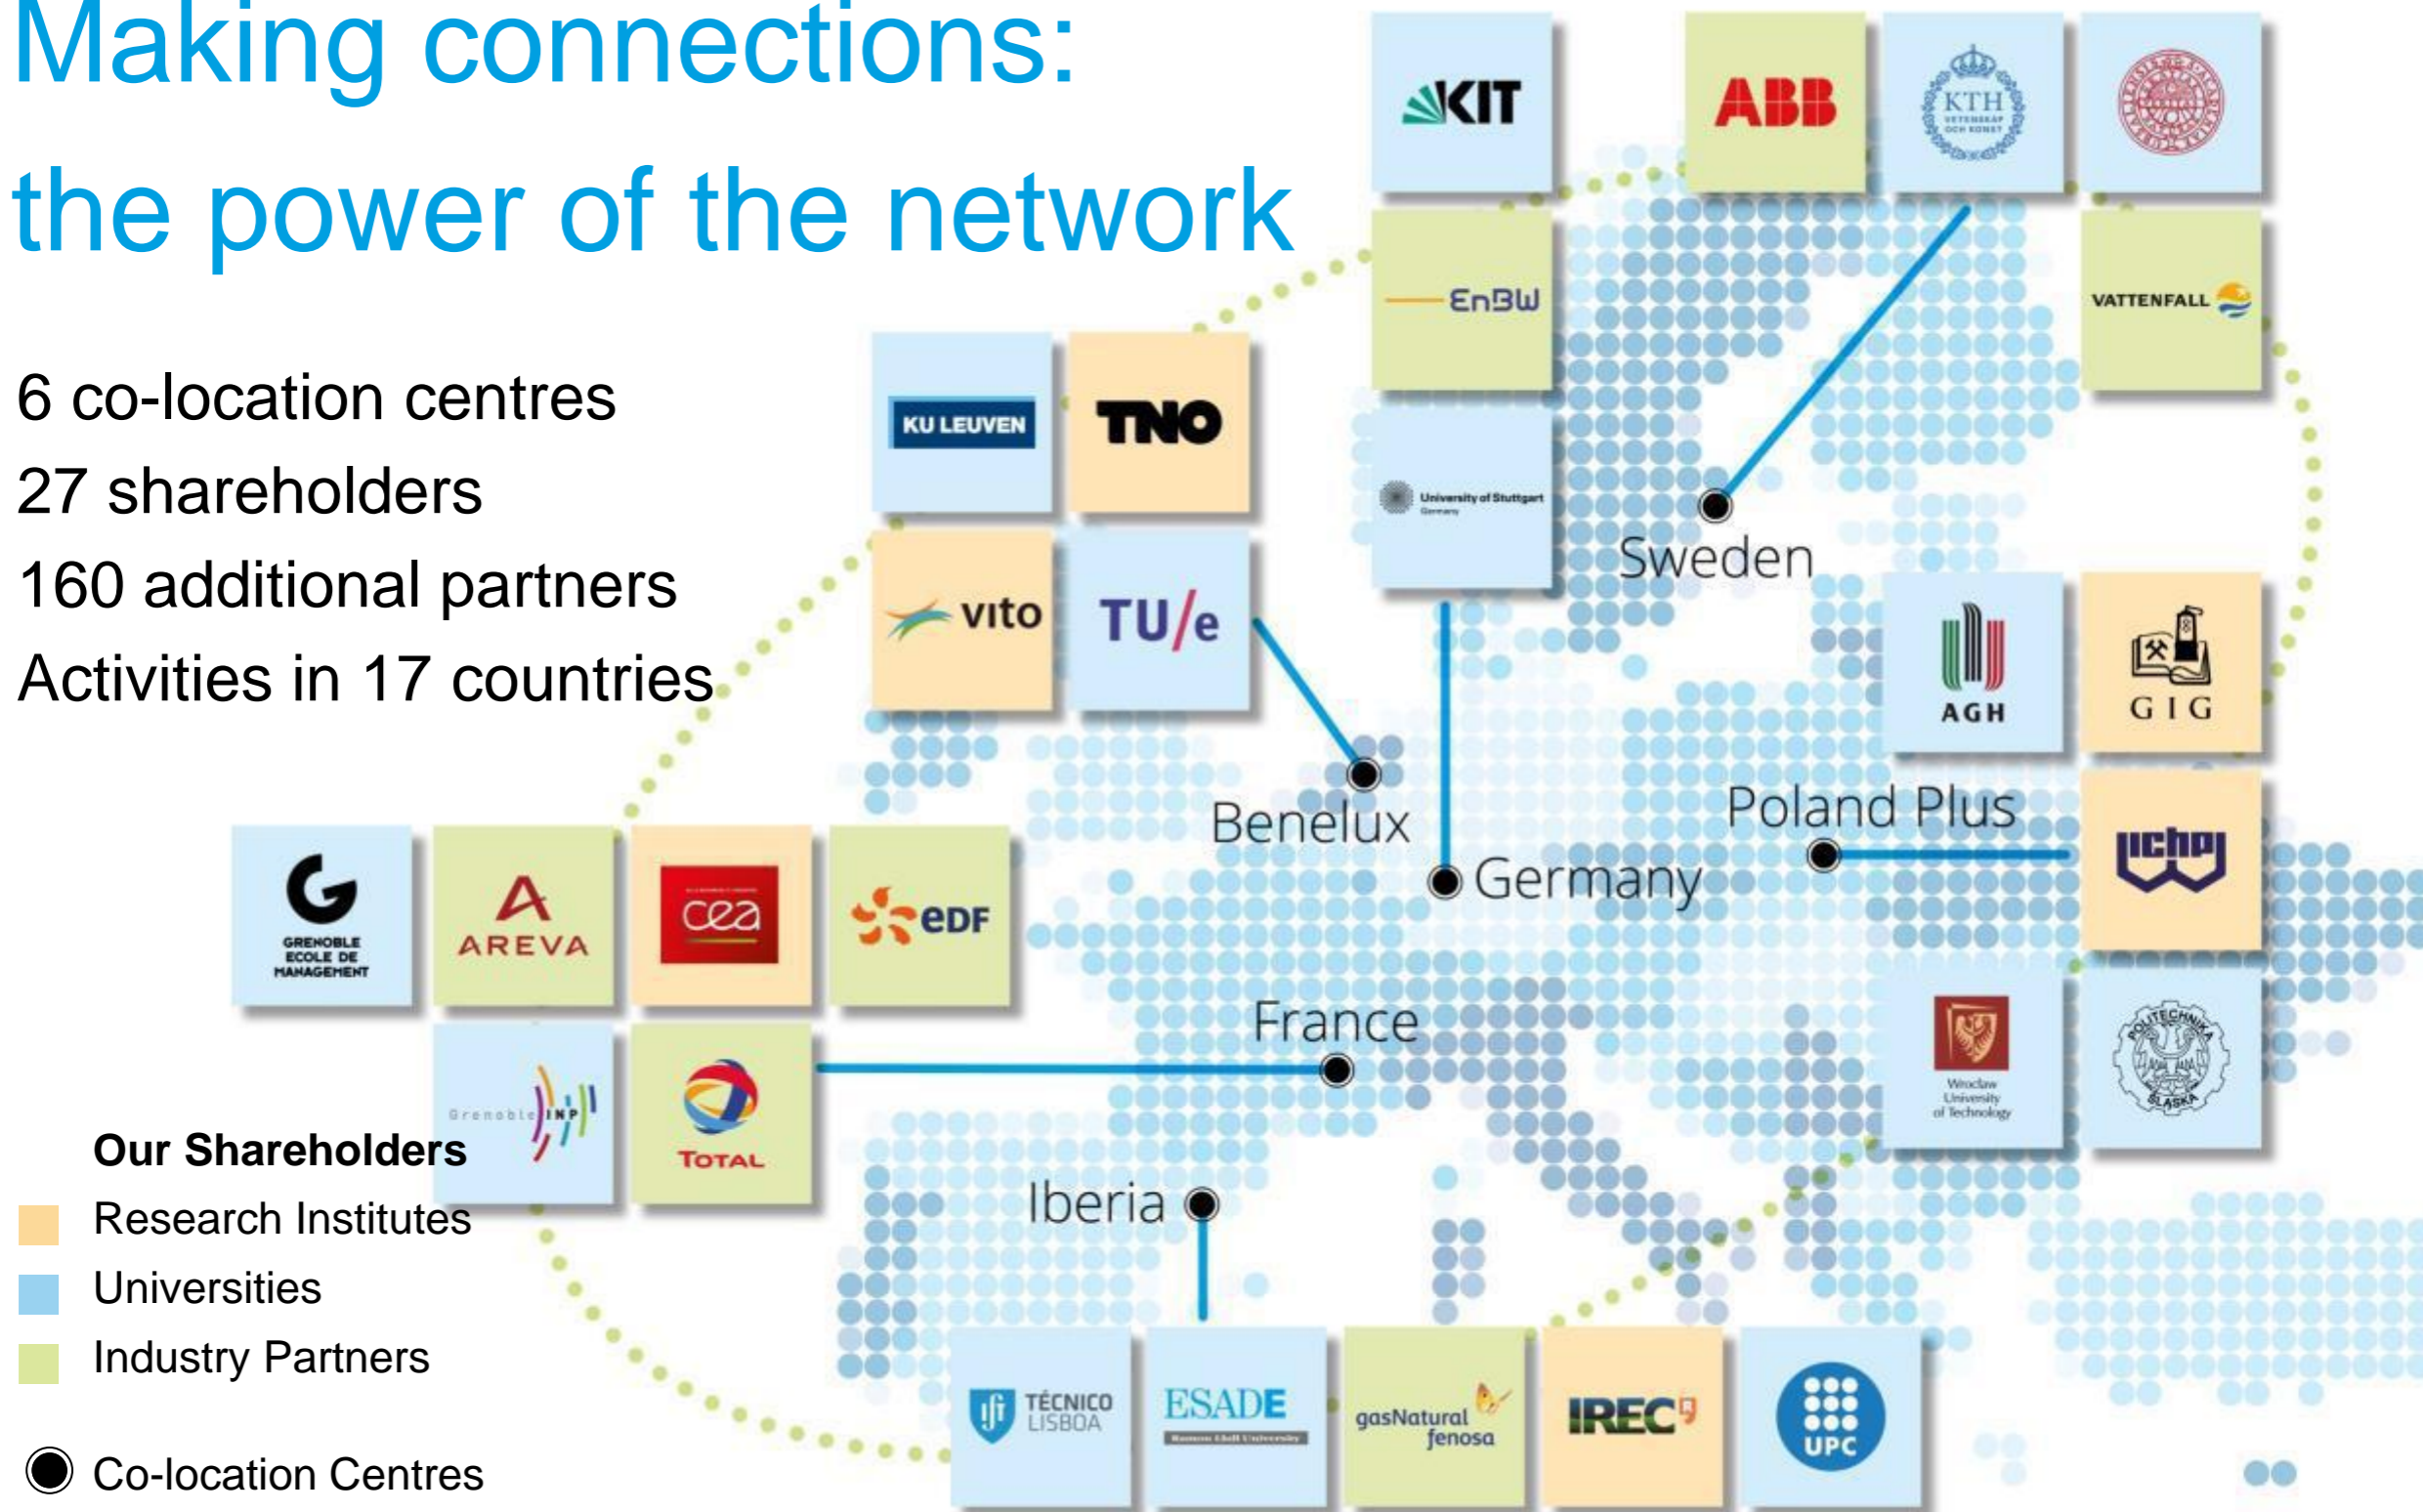

Making connections: the power of the network

6 co-location centres

27 shareholders

160 additional partners

Activities in 17 countries

2 Call for Innovation Projects / year

Call for Innovation Proposals 2016

Round two opening soon! from 1 June – 11 October

We are looking for companies with innovative solutions in sustainable energy

Join us, and together we will make a real impact

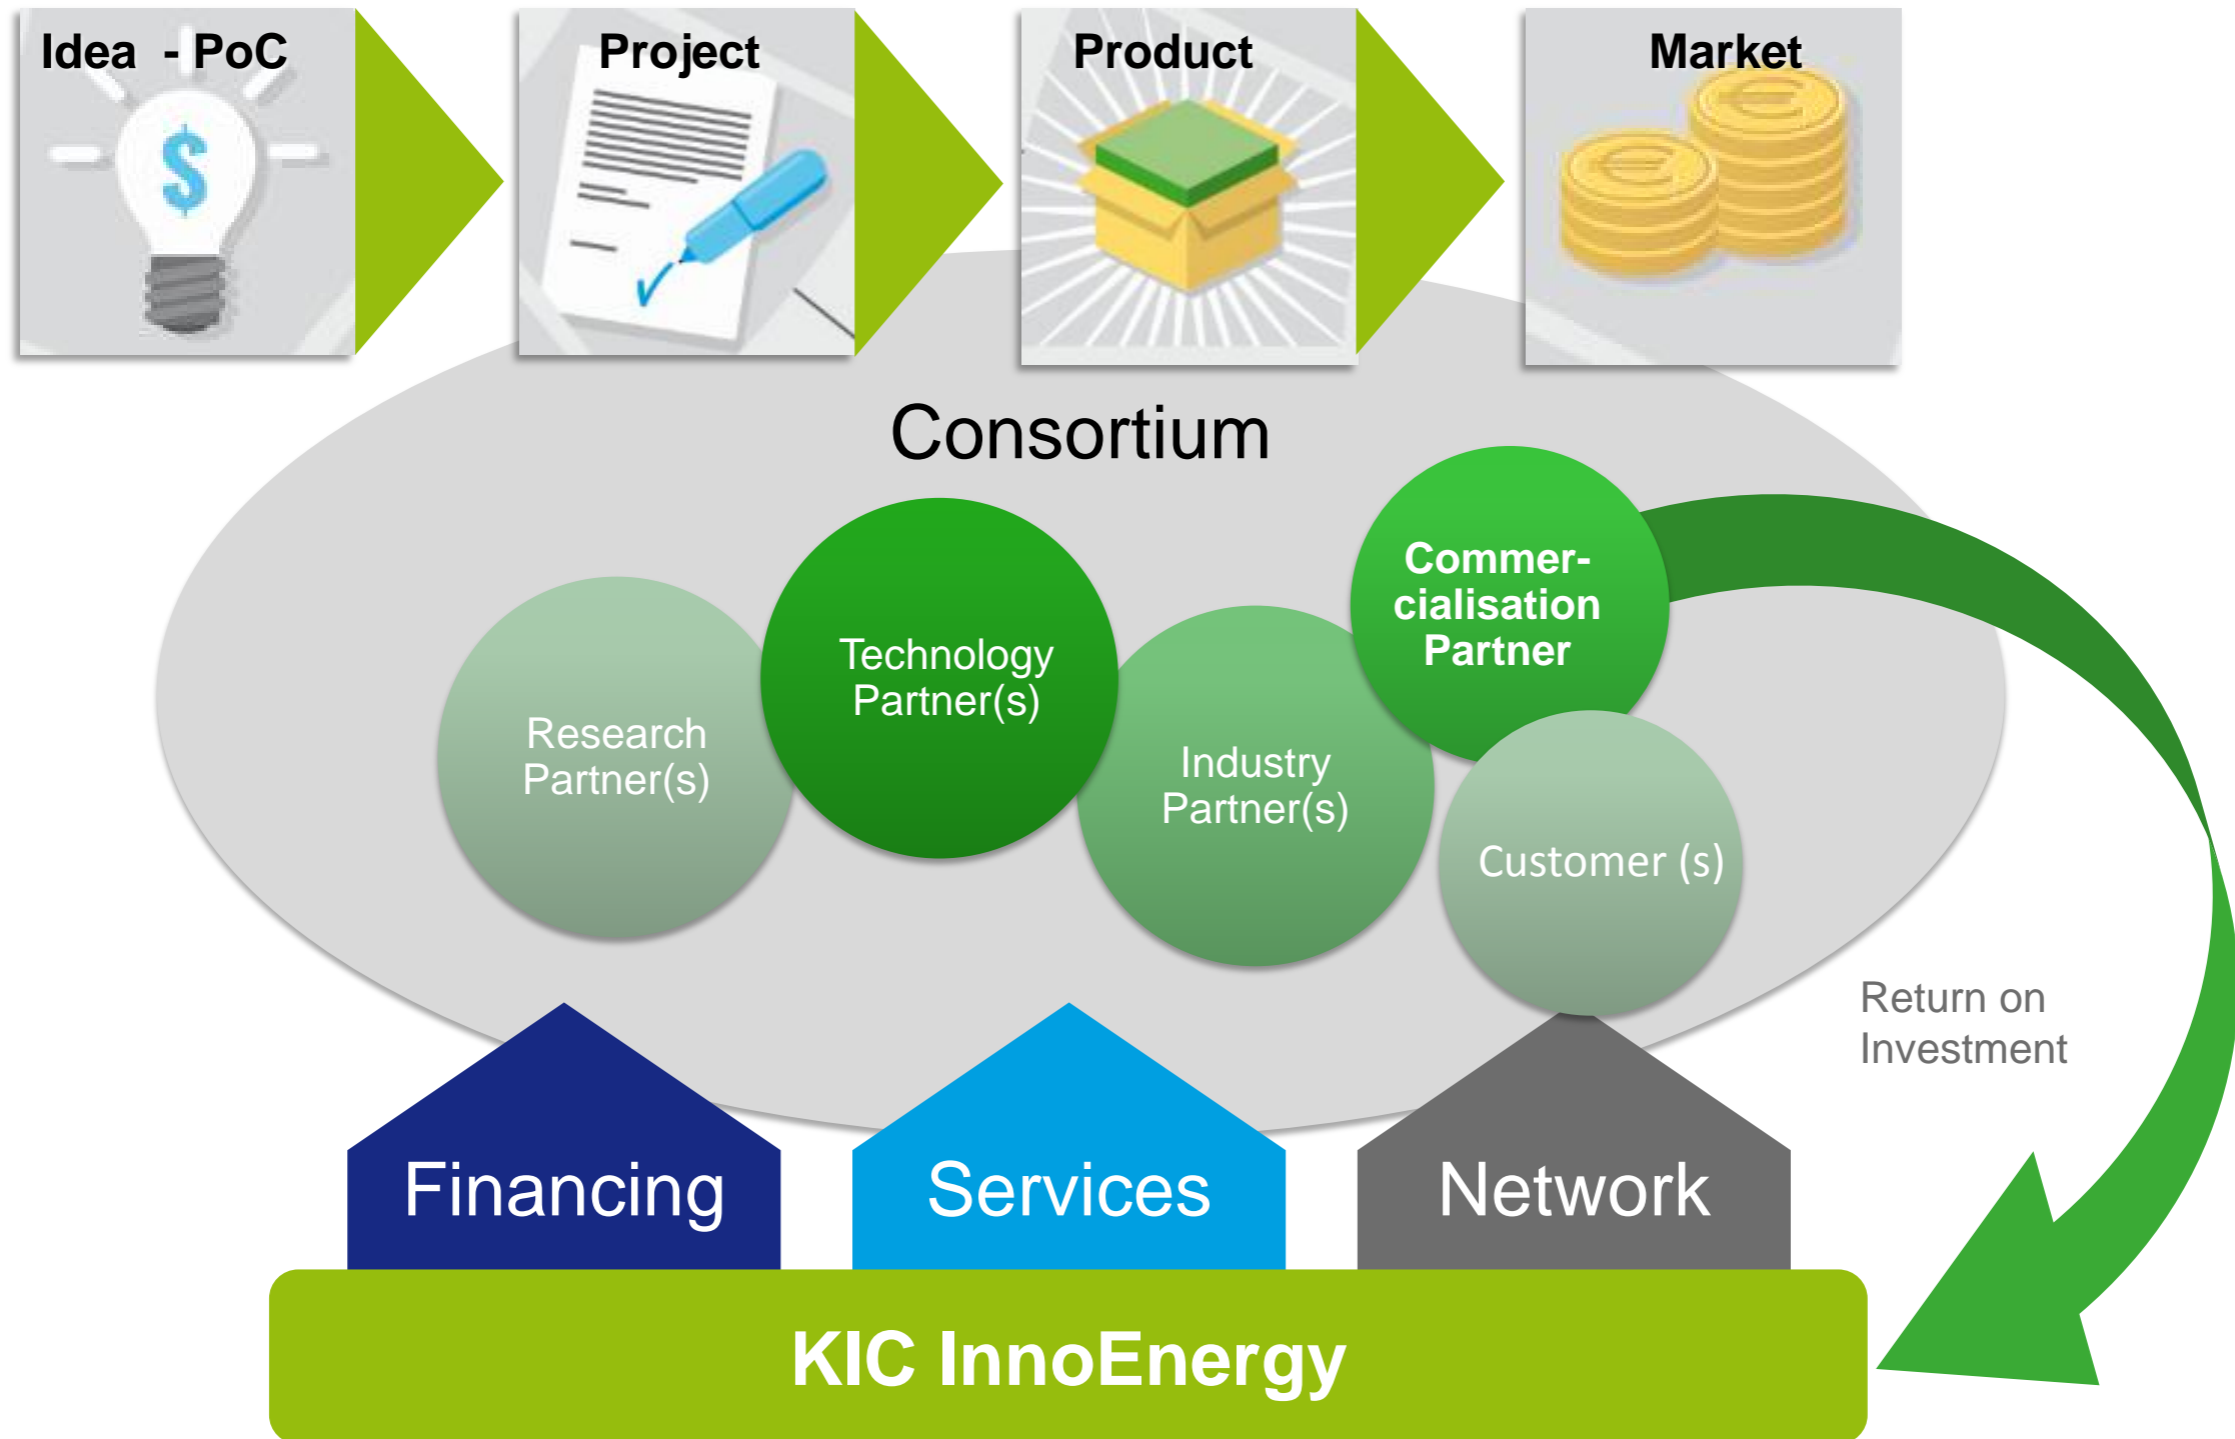

What is a KIC IE Innovation Project?

It is the **transformation of available knowledge**
into **new, marketable products and services**
related to the sustainable energy field
that create a positive impact on the market and society

Concept

Eligibility Criteria

- TRL ≥ 5
- Topic falls within one of KIC InnoEnergy thematic fields

- ≤ 5 years Time to Market
- ≤ 3 years Project Duration

- 3-7 Partners
- From at least 2 different EU Countries
- Commercialisation partner leads
- 1 formal/associate partner in consortium*

* Commitment from commercialising partner to become associate partner in case project approved is enough

Success Based ROI Scheme

“Your success is our sustainability”

Key principles for KIC InnoEnergy ROI:

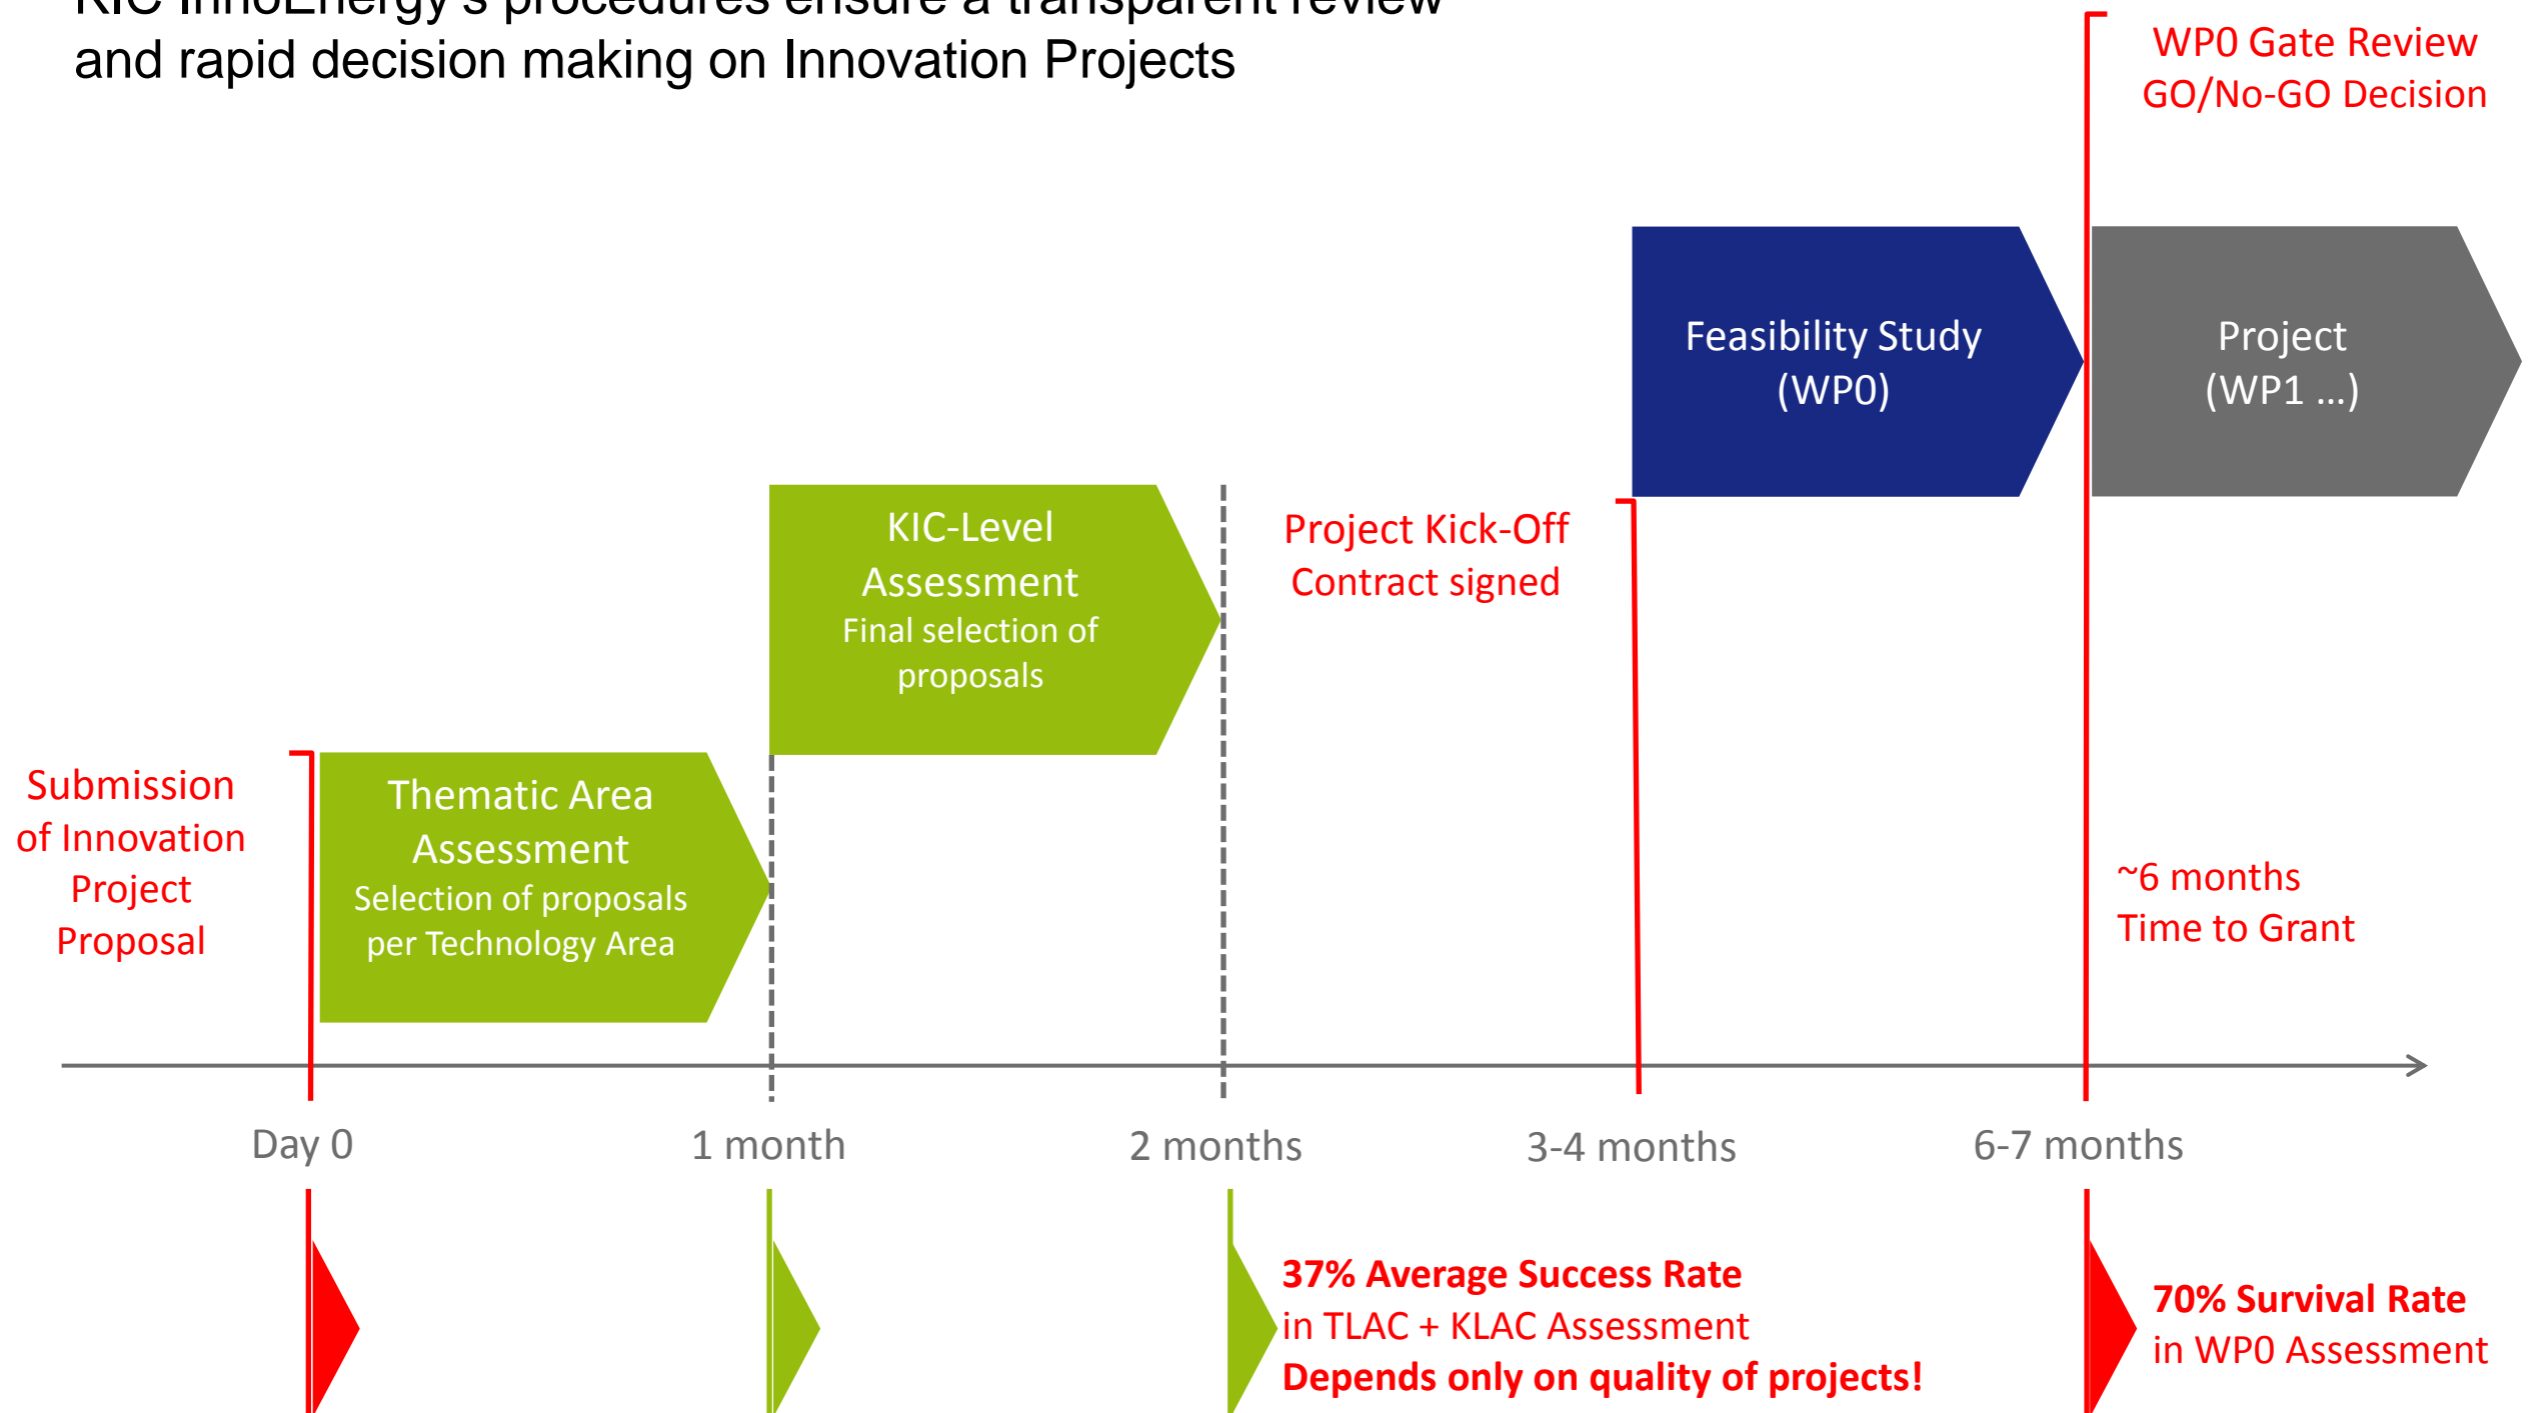

- **Allows for a sustainable business:** win-win offer
- **Risk-Sharing:** linked to the project risk
- **Attractive for KIC:** linked to the KIC funding scheme

Usual ROI schemes:

- **Revenue sharing**
- **Royalties on IP licensing**
- **Equity**

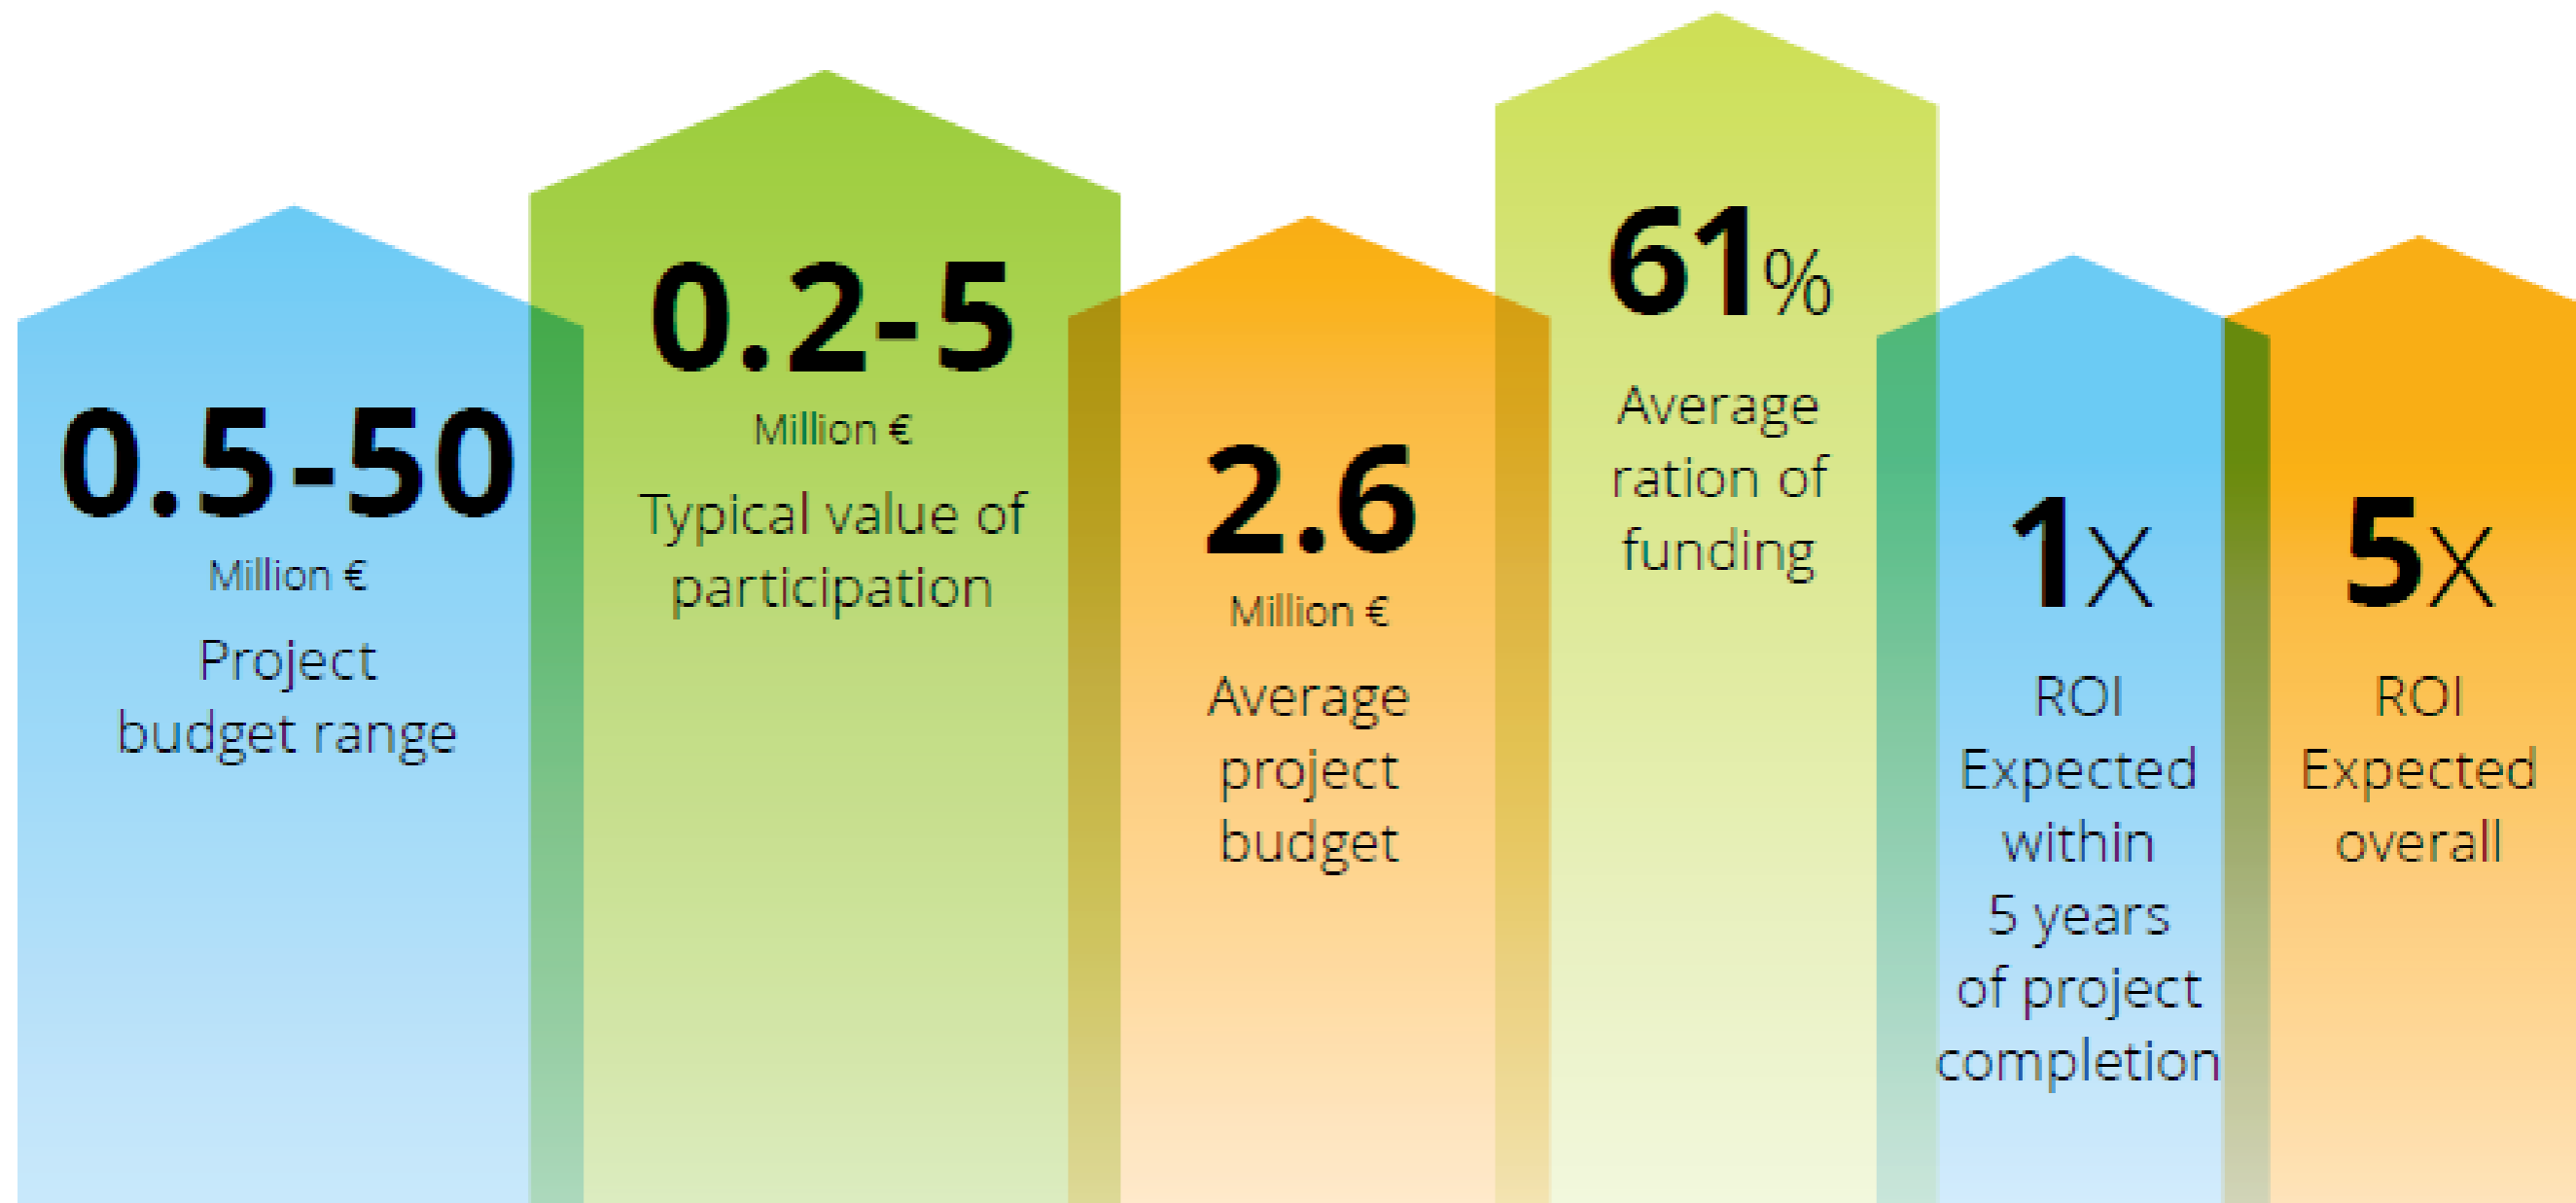

Resulting IP belongs entirely to the project consortium

KIC InnoEnergy's procedures ensure a transparent review and rapid decision making on Innovation Projects

Sustainable funding

Combining the best of private and public models

Our offer

Targeted support to deliver real impact

-  Commercial relationship
-  Flexible financing
-  Secure IP environment
-  On-going support
-  Europe-wide engagement
-  Fund and run

Power of the network

Support, resources, experience from across Europe

-  Manage complex projects and IP
-  Market analysis, business models, industrialisation
-  Identify market needs and first customers
-  Marketing and sales
-  Post-project support

And above all...

*... **“Your success is our sustainability”***
