WIND ENERGY**

The II Offshore Wind Congress is a unique opportunity to associate your brand with offshore wind.

WHY BECOME A SPONSOR?

- Brand presence at the main offshore wind event in Spain.
- Positioning as a company in the offshore wind sector.
- Media and social media presence during the Congress promotion, including press releases.
- Stand out from the rest as a company committed to the offshore wind sector

OUR OBJECTIVE

Our goal is to facilitate networking environments, knowledge exchange, and experiences for the offshore wind sector.

Each of our events stands out with a unique personality, and partner companies take center stage throughout the entire event. Attendees perceive the added value of an innovative event.

The development of offshore wind in Spain will highlight the innovative and industrial role of our companies.

The 2nd Marine Wind Congress will identify and highlight the role of the companies that are part of this sector.
